

# Fossil

Designer	Xavier Lust
Year	2022

Halfway between a sculpture and a piece of furniture, Fossil is a coffee table that works on the organic form and material soul of white cement. Available in three different sizes, Fossil can be used individually or in group to create various compositions. Its material-inspired design evokes the natural universe, finding its perfect place in any outdoor setting.

## Top/Structure

Lightweight UHPFRC cement (ultra-high performance, fibre reinforced cement), with high technical / structural characteristics. The finish and colour is the result of a skilled mixture of sand and natural elements, followed by slow maturation and drying of the piece.

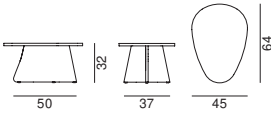

## Fossil finishes

### Top/Structure

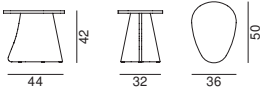

Cement warm white X135
