NEIL TWIST

Designed by Jean Marie Massaud

TWIST: NEIL'S EVOLUTION

Gritty, versatile, vibrant, yet at the same time an icon of essentiality, in perfect harmony with MDF Italia's style.

These are the main features of Neil armchair, that today comes in a brand new version: Neil twist, whose eloquent name makes us sense that the manually braided rope is the project's protagonist, with a key detail - the contrasting internal cross-stitch - that adds character to the overall view. But surprises do not end there for what represents the development of Neil armchair: in fact it is proposed in rope with five different colours, with base in white, bronze or black nickel round steel wire; with or without armrest.

In this new version, Jean Marie Massaud's chair is highly versatile: it can actually be used both indoors and outdoors, where its neutral or very bright colours will be outstanding in parks and private gardens, meeting places, hotels and public spaces.

SHELL

Load-bearing seating structure made of steel, woven with high-tenacity polyester cord, solution-dyed, guaranteeing high resistance to atmospheric agents, light, and abrasions, with stretch resistance. Sled-base made of steel rod. All Neil Twist models have a stitching detail in a contrasting colour, for all versions, in glossy anthracite colour. Variants and types:

- Matt ecru - col.23
- Matt anthracite - col.03
- Glossy silver grey - col.04
- Glossy English green - col.17
- Glossy orange - col.11

BASE

The frames are powder painted in matt white, bronze and black nickel with a specific treatment for outdoor use. Available in the low version, with or without armrests.
