# MINIMA 3.0

Designed by Bruno Fattorini

Minima 3.0 by Metrica - design Bruno Fattorini.

## NOVELTIES 2019

Today Minima 3.0 evolves and renews, turning into a more versatile and adaptable furnishing system, capable of joining more functions. The new Minima 3.0 is divided into 5 types: free-standing, wall-mounted, sideboard, sketch and room divider.

In addition, for the free-standing version, two new heights are available - 188.5 and 225 - and new shelves with LED lights integration.

[Find out more about the sideboard, sketch and Room Divider versions.](#)

Minima 3.0: three stands for the three key elements that compose the system: shelf, frame, cabinets. Essential and flexible, Minima 3.0 represents the natural makeover of Minima, MDF Italia collection's icon product, special mention at the XVII Compasso D'Oro ADI in 1998. Technology and innovation have enabled this thin aluminium structure, to propose an increasingly minimal yet strong identity. The storage units (with door, flap opening door, drawers, or open) are simply resting inside the structure and are repositionable quite easily. Uprights and shelves made of matt lacquered white and graphite grey extruded aluminium (100% recyclable). Nominal lengths of cabinets: 30, 60, 90 cm, available in a matt lacquered micro-goffered finish or in a wood variant. Two options: free-standing (in 8 heights) or hanging (in 4 heights), always with a 33 cm depth.

## STRUCTURE

Uprights and shelves made of extruded aluminium and assembled together by using a concealed joining system, capable of giving the structure stability and a special resistance to loads. Minima 3.0 is entirely made of 100% recyclable aluminium.

## CABINETS

Elements made of MD-wood fibreboards.
