MINIMA 3.0

Designed by Bruno Fattorini

Minima 3.0 by Metrica - design Bruno Fattorini.

Minima 3.0: three stands for the three key elements that compose the system: shelf, frame, cabinets.

Essential and flexible, Minima 3.0 represents the natural makeover of Minima, MDF Italia collection's icon product, special mention at the XVII Compasso D'Oro ADI in 1998. Technology and innovation have enabled this thin aluminium structure, to propose an increasingly minimal yet strong identity. The storage units (with flap opening door, drawers or open cabinets) are simply resting inside the structure and are repositionable quite easily. Uprights and shelves made of extruded aluminum (100% recyclable), matt painted finish in white, graphite grey, umbra gray and pearl nickel. The Basic cabinets are in micro-embossed matt lacquered or wood. The Extra cabinets are in Cimento or lacquered glass. Minima 3.0 is available in the ground-resting (eight heights) and hanging (four heights) variants, always in the 33 cm depth.

Minima 3.0 evolves and renews, turning into a more versatile and adaptable furnishing system, capable of joining more functions.

The new Minima 3.0 is divided into 5 types: GROUND-RESTING, HANGING, SKETCH, SIDEBBOARD AND ROOM DIVIDER. In addition, for the ground-resting version, two new heights are available - 261.5 e 298 - and new shelves with LED lights integration.

STRUCTURE

Uprights and shelves made of extruded aluminium and assembled together by using a concealed joining system, capable of giving the structure stability and a special resistance to loads. Minima 3.0 is entirely made of 100% recyclable aluminium.

MINIMA 3.0 GROUND-RESTING

To use this system H152, H188.5, H225 (except H261.5 and H298) as a room divider for home and work environments, it is mandatory to join two structures together so as to obtain a ground depth of 66 cm to ensure a proper stability to the system.

The wall fixing is for always suggested for heights 152 / 188.5 / 225 / 261.5 / 298 cm and for compositions with heights 42.5 / 79 / 115.5 if equipped with drawer containers.

Please note: for center-stand compositions, with heights of 42.5 / 79 / 115.5 cm, equipped with drawer containers, simultaneous opening of all drawers is not recommended, as it could cause the overturn of the structure.

MINIMA 3.0 HANGING

Minima 3.0 in the hanging version comes in four heights: 38 / 74.5 / 111 / 147.5 cm. Inner height of compartments is always 35 cm.

CABINETS

BASIC CABINETS

The cabinets can be with open, flap opening doors or drawers. They are simply resting inside the structure and are repositionable quite easily, thus allowing to meet any storage requirements as desired and to choose your own lifestyle by using different colours, woods and shapes.

EXTRA CABINETS

Minima 3.0 now sees the addition of a new storage unit that brings this historic shelving bang up to date and in line with new architectonic and contemporary living styles. Formality, minimalism, careful details and new finishes are the signature features confirmed and innovated in the new units added to the existing ones. The door is further enhanced by two main materials: rearlacquered glass and grooved Cimento®.

Minima 3.0 Extra cabinets

Abacus

End or intermediate panel for Extra cabinets

To complete the order of the Extra cabinets, it is necessary to add the end panel (LH/RH) or intermediate panel (INT), depending on the composition. Below are some examples of use in relation to the position of the cabinets.

- 1 Left-hand end cap L
- 2 Right-hand end cap R
- 3 Intermediate cap C
- 4 Open cabinet

Minima 3.0 ground-resting

Abacus

A drawing of the composition with the TV position must be sent together with your order.

For ground variant only with 120 cm long shelving and in heights 115.5 cm, 152 cm, 188.5 cm, 225 cm, 261.5 cm and 298 cm the bookcase can be set up to support a TV set. With these variants, just one shelf can be removed, thus getting a 71.5×120 cm useful space, that is compatible for up to 46" TV sets (a size that may vary depending on brand and model).

Please note

Please be informed that it is necessary to order two caps for each shelf for a composition with TV unit placed in intermediate position.

Minima 3.0 ground-resting

Abacus

Rules for compositions with integrated led

Power for led compositions

Electrified frames for all heights 100 W

In the above example:
 20 shelves with led cm 90 = $20 \times 10 W = 200 W^*$

*maximum power limit for 2 electrified frames

Scheme to establish the number of electrified frames and maximum number of shelves that can be provided with led

Length of the shelf with led	Watt consumption for each shelf
60 cm	6.5 W
90 cm	10 W
120 cm	13.5 W
