PENTAGRAMMA

Designed by Pitsou Kedem

Pentagramma by Pitsou Kedem interprets the concept of the day system with sophistication by focusing on the value of lightness. Surprisingly simple to compose and install, the design develops from an extruded aluminium panel fixed to the wall, on which various elements, containers or shelves are hung. Its name was inspired by its construction: the wall-mounted back panel to which the accessories are hung to create the composition looks like a music stave or pentagramma in Italian, on which the notes are written to compose a tune.

Also available in the Sideboard version, Pentagramma meet the organisational needs of domestic and workspaces, from living areas to bedrooms to office environments. The base element takes the shape of an "L" and accommodates storage units with a flap door and open compartments, available in the colours from the collection. Extremely flexible and versatile, this system offers the possibility of reconfiguring the layout over time. Just a few elements are enough to obtain infinite combinations that fulfil different functions and situations of use, fitting seamlessly and with versatility into all residential and contract environments.

PENTAGRAMMA HANGING

PENTAGRAM | HANGING

The Hanging version is composed of back panels (wall-mounted panel), shelves and open units.

For all technical details, see data sheet in the downloads.

PENTAGRAMMA SIDEBOARD

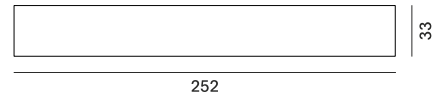

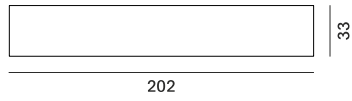

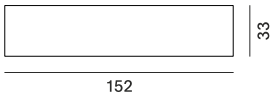

PENTAGRAM | SIDEBOARD

The sideboard version is composed of base elements, open units and units with doors.

For all technical details, see data sheet in the downloads.
