M1

Designed by Piergiorgio Cazzaniga

Informal elegance and classic lines characterise the M1 chair by Piergiorgio Cazzaniga.

Available with a stainless steel or matt white painted base and white plastic shell, this chair is a 100% recyclable green proposal for various outdoor environments.

With its essential silhouette, it fits easily into terraces, gardens, public or private swimming pools, but also into more urban contexts.

Stackable up to 16 units, the M1 chairs can be stored easily to save space.

OUTDOOR VERSION

Outdoor use for the chair with white shell and base in: satin-finished 316 stainless steel for an absolute resistance to atmospheric agents and matt painted white.

INDOOR VERSION

The bases are available in: satin-finish 304 or 316 stainless steel, chrome-plated or steel painted with polyester powder with matt white, lead grey, mud brown, green, avio blue and powder pink finish. The shells can be matched with the bases in the same colour (with plain colour effect) or with the chrome-plated or stainless steel finishes. Fully recyclable.

The standard version can come with an upholstery kit (in fabric or leather plus padding) which makes the shell fully padded. Polyurethane filling. The upholstery kit can be purchased separately and is easy to remove, thus leaving the chair in the standard version.
