SIGN MATT

Designed by Piergiorgio Cazzaniga

Sign Matt by Piergiorgio Cazzaniga is a sculptural seat with organic, fluid forms. Its proportions and volumes are designed to guarantee maximum comfort, whether in the chair or armchair version. Available in three different colours with a matt finish - white, cement and mud - Sign is perfect for furnishing any outdoor environment and to create an open-air living room, on the garden or on a veranda.

STRUCTURE

The single-material load-bearing structure is in polyethylene (PE)*, moulded with rotational moulding technology. Only white, the purest and most delicate colour, is made with a particular mixture called EASY CLEAN. A specific additive added to the initial plastic material facilitates the cleaning and the maintenance phases. *The material (PE) can present some impurities internally, due to particular production treatments, which are included in the accepted quality standards.

OUTDOOR USE

The particular resistance of polyethylene and its simple maintenance make Sign Matt perfect both indoors and outdoors. A version with a dripping hole is available for both the chair and the armchair. The hole cap is in white for the white and cement finishes, in black for the mud finish.
