AXY

Designed by Claudio Bellini

Lightness and dynamism: these two values underline the Axy table system by Claudio Bellini. A suggestive blend of different materials: the aluminium supporting frame is paired with a thin ceramic top in the finishes Pietra di Savoia, Black Calce and light Grey Calce.

The focal point of the design is the table frame, which presents itself as an essential architecture, giving the table a feeling of lightness.

Available in many sizes, it naturally adapts to different interpretations in the outdoor environment.

FRAME

Fixed bearing frame made of extruded aluminium painted in matt graphite grey.

For all types of die-cast and extruded aluminium bridge legs, available in the version painted in white, matt graphite grey, bronze and matt black nickel.

TOPS

The outdoor tops are available in ceramic, in three different variants. Thickness 12 mm.

INDOOR USE

Available tops designed for indoor use only in: Fenix and wood.
