A space conceived with no barriers, no physical boundaries, only a big access to the theatre game. The anniversary of two key products from MDF Italia world is staged, through a space halfway between backstage and experimental theatre, where the protagonists are highlighted.

Theatrical lights, two stages, decorative suspended elements, small curtains are the elements telling the story. The audience enters the scene, becoming an actor together with the objects. A visual horizon of light synthesizes the scene, surrounding it and creating a big access portal to the exhibition space.
